Please see overleaf for additional information about the process of sending wine to the USA from Get Freightd

Frequently asked questions re the USA

Sending wine to the USA is a different process to sending wine to all other countries. Your wine is not sent using DHL, as DHL are not able to send wine to individuals in the USA.

Get Freighted have their own broker and distributors to safely arrange clearance and delivery of your wines into all states in the USA except Utah. We can deliver to individuals and we do not require you to provide any COLA certificates, or tax file numbers.

USA shipments are sent as consolidated shipments from BTL in Adelaide. This means Cullen's will arrange delivery of your wines to BTL in Adelaide, this cost is \$20.00 and paid at the same time as you purchase the wine.

Your wine will be delivered to your receiver's door where they will sign for proof of delivery. Please note the person who signs for the wine must be aged 21 years over.

Rates to send your wine are below and are charged by Get Freighted in US dollars once the wine has left Australia. Included in this price is delivery of wine, insurance and all duties and taxes.

Weight in Kilos	Quantity of Bottles	Price (USD)
8 - 10 kilos	6 Bottles	\$230.00
16 - 20 kilos	12 Bottles	\$260.00
32 - 40 kilos	24 Bottles	\$515.00
48 - 60 kilos	36 Bottles	\$750.00
64 - 80 kilos	48 Bottles	\$1000.00

Get Freighted will send you an email notifying you that the transaction has been made and your wine has left Australia.

The wine will take between 2 to 3 weeks to be delivered once it has left Australia, (customs clearance in the USA is timely).

The wine will travel in temperature controlled vans until it reaches the closest depot to your clients address. This is where the tracking number provided by our USA distributor will be active. Your wine will then be delivered via UPS, Fedex or the most suitable courier in the area.

Get Freighted are more than happy for you to contact them if you have any questions both before and after your shipment is sent:
